of 1992: Rate Regulation	)	

REPLY COMMENTS OF AVENUE TV CABLE, MASSILLON CABLE TV,  
PEGASUS CABLE AND THOMPSON CABLE VISION CO.

Avenue TV Cable, Massillon Cable TV, Pegasus Cable, and Thompson Cable Vision Co. (hereinafter collectively referred to as "Commenters"), by counsel, hereby submit Reply Comments in response to the Fifth Order on Reconsideration and Further Notice of Proposed Rulemaking released September 26, 1994 in the above-captioned proceeding ("Fifth Reconsideration").<sup>1</sup> In support of these Reply Comments, Commenters state as follows:

Commenters submit these Reply Comments for the limited purpose of supporting the definition of "small cable company" proposed by the National Cable Television Association, Inc. ("NCTA") in its Comments submitted November 16, 1994.<sup>2</sup>

In Comments submitted November 16, 1994 in this proceeding, Commenters suggested a gross annual revenue figure of \$25 million as the cut-off for a cable company to qualify as a

<sup>2</sup>"Comments of the National Cable Television Association, Inc.," MM Docket Nos. 93-215 and 92-266 (filed Nov. 16, 1994) ("NCTA Comments").

"Smaller Operator" which should be eligible for regulatory relief. Commenters indicated they were not suggesting that a higher figure might not be appropriate.<sup>3</sup>

In NCTA's November 16, 1994 Comments, NCTA argued persuasively that the FCC's definition of small cable operator must be consistent, inter alia, with its definitions of small telephone companies. NCTA supported rate relief for all "small cable companies," which were defined as those with, at a minimum, \$40 million or less in annual revenues. NCTA also stated it would be appropriate to extend significant relief to cable companies with annual revenues of \$100 million or less.<sup>4</sup>

Commenters agree with the analysis developed by NCTA, and in particular support the concept that relief for smaller cable companies should be consistent with relief granted small telephone companies. To this end, commenters hereby modify their position to support adoption by the FCC of regulatory relief for small cable companies, as defined by NCTA. To do otherwise would be unfair to cable operators and would violate principles of regulatory consistency.

WHEREFORE, Commenters respectfully request the Commission to adopt size standards for small cable companies
